WILLIAMSON
FOR PRESIDENT

Paid for by Marianne Williamson for President

Americans should not have to limit our political imaginations. The idea that our economy is doing well is contradicted by the experience of millions of Americans.

Current policies fall vastly short of the genuine economic reform we need. As long as corporate profits take precedence over the good of the people, vast suffering will mark America's economic landscape. Time to join every other advanced democracy in providing universal healthcare, tuition free college and tech schools, free childcare, paid maternity and sick leave, and a livable wage.

It's time to disrupt an oligarchic system and begin a new chapter in American history.

Marianne Williamson is prioritizing:

- Universal Healthcare
- Free State College & Technical Schools
- Cancel Student Loan Debt
- Free Child Care
- Paid Family & Sick Leave
- Common Sense Gun Safety
- Wealth Tax
- Getting Money out of Politics
- Creating a Green Economy
